BOSTON, September 28.

Last Wednesday his Excellency the Governor was pleased to make the following SPEECH to the Great and General Court or Assembly now sitting here, viz.

Gentlemen of the Council, and House of Representatives,

THE Occasion of my present meeting you here is to inform you, that Mr. Winslow, Captain of one of the five Companies, which were raised in this Province for his Majesty's Service in the Expedition against the Spanish West Indies, accompanied with Mr. Barker and Mr. Vryling, two Subalterns in the same Service, lately arrived here from the British Camp in the Isle of Cuba, and has brought two Letters, one from the Honourable Brigadier General Wentworth, Commander in Chief of his Majesty's Land Forces in the West Indies; and the other from the Honourable Henry Cope, Esq; Lieutenant-Colonel of the American Regiment, commanded by the Honourable Col. Gooch, both dated in August last from the aforesaid Camp: In the former of which, I am acquainted by the General, That his Majesty having directed him to use his best Endeavours to recruit the Forces under his Command, from the Colonies of North America, he had appointed Captain Winslow to repair for that End to this Province; and as he had no Means of supplying the recruiting Officers with Money, desired that his Majesty's Governor would give Capt. Winslow credit for such Sums, as may be wanted for that Service, according to his Instructions, by which he is allow'd to receive Four Pounds Sterling for each Man which he shall raise, deducting out of it such Sums as shall be advanced before to enable him to begin his recruiting; and these Recruits, when raised, are to be subsisted out of that Money, till they shall be embarked for Cuba: And I am further inform'd by that Letter, That all such, as shall enlist themselves on this Occasion, will be entitled to the Advantages, which were offer'd by his Majesty in his Instructions on the first raising of the American Regiment; and that 'tis expected that his Majesty's Governor will take the proper Measures for transporting the Recruits to Cuba, and that the Province will make Provision for the supporting of that Charge. — And by Col Cope's Letter I am inform'd, That his Majesty's Troops had begun to make a Settlement on that Island, in a very temperate Air and fertile Soil, capable of producing all the Necessaries of Life; where his Majesty's Subjects are invited to come and settle among them, upon a Promise of Grants of Lands there, from the General to them, and to all such, as shall enlist as Soldiers in the Service of the Expedition. Both which Letters I shall order to be laid before you, together with another from his Grace the Duke of Newcastle to the Commander in Chief of this Province, dated from Whitehall, dated the 4th of December 1740, directing him, That in case any farther Number of Men should be wanted for the Service of the Expedition, than what had been before sent from this Province, to endeavour to raise

them accordingly; and to take Care that they shou'd be transported to such Place and at such Time, as should be appointed by the late Lord Cathcart, then General of his Majesty's Land Forces in the West-Indies, for that Purpose.

And I am further inform'd by Capt. Winslow, who was several Weeks in Cuba before his Departure from thence upon the Service of raising Recruits here, and is a Gentleman well known among us, and of undoubted Veracity, That he left 2400 of his Majesty's Forces, and 1000 Negroes, safely landed in the Island of Cuba, on the southerly Side of it, 30 Leagues to the Westward of the East End, and at about 50 Miles Distance from St. Jago by Land, and 12 Leagues by Sea; where they had seated themselves upon the Side of a very commodious navigable River, in a fertile Soil, and found good Provisions; and so temperate and wholesome a Climate, that the Soldiers there had quite recover'd their Health, and were in full Spirits: That they had built about 1000 Huts, and had cleared a Road of about 16 Miles as far as a small Village, which the Spaniards had deserted upon their Approach; and where a Guard of English consisting of about 300 Men had posted themselves: And that Fortifications were begun to be raised; and that as many more English Troops were soon expected there from Jamaica, as would make the whole Number of white Soldiers 4000, besides a considerable Reinforcement from England: That all the Magazines, both for the Fleet and Army, were ordered to be sent thither from Jamaica; And that the Camp and Settlement was at about 20 Miles Distance from the Fleet, which was safely stationed in a very fine Bay, capable of holding all the Navies of Europe, at the Mouth of the above mentioned River, under the Command of Admiral VERNON, who had with him there Twelve of his largest Ships, besides other Ships of War and Transports. — And he informs me, That he is directed to give Forty Shillings Sterling Bounty Money, out of the Money which he is to receive from me, to every Volunteer, who shall enlist in the Service of the Expedition.

Gentlemen,

After giving you this Account of the Situation of his Majesty's Troops in the Island of Cuba, I need not enlarge upon the Probability (I shou'd rather say Certainty) of their not only maintaining their present Posting there, but also of extending their Conquests and Possessions over the Island, and how valuable our Possessions and Settlements there must be to the English in general, and his Majesty's American Colonies in particular, by protecting the English Navigation in those Parts, and putting it in our Power to annoy that of the Enemy, and interrupt their Trade; and by opening a more extensive, rich and beneficial Trade for ourselves in the West Indies than we ever yet enjoy'd. — Wherefore as this Province is the chief Mart of Trade in the British America, and so more deeply interested in the Success of the English Conquests and Settlements in the Island of Cuba than any other Colony upon the Continent: I doubt not, *Gentlemen*, but you will exert yourselves in

the common Cause at this critical Conjunction, in proportion at least to your Interest in the Event of it; and I am the rather encouraged to hope this from you, because the General Court is readily distinguished their Duty to His Majesty, & Zeal for the publick Service, by cheerfully complying with what was recommended from His Majesty at the beginning of the Expedition, in voting 1000 Men for the Service of it as the Quota of this Province in the Expedition; which Number of Men was very near actually raised, and five complete Companies of 100 Soldiers each were sent into the Service; but from some Circumstances attending that Transaction, it happen'd that the other intended five Companies were not completed or sent; and so the Province was then disappointed of contributing its full Quota of Levies towards the Expedition, as the General Court then designed to have done; and by that means some of our Neighbours exceeded us in the proportion of their Services upon that Occasion. But now, Gentlemen, you have an happy Opportunity put into your Hands of at least completing that Number of Soldiers, which was at first intended to be raised for the Expedition; and thereby greatly serving His Majesty, the publick Good, and the Interest of this Province in particular; and this you may now do at a far less Expence than what it cost the Province before; for His Majesty does not require that you should furnish the Recruits which shall be raised here for this Service, but only that you should transport them to the Camp on the Island of Cuba: And if to this you would add, as I hope you will do, the same Bounty Money, to encourage Men to enlist, which the General Court first gave in the Beginning of the Expedition, you will shew you will shew yourselves uniform and steady in that publick Spirit, which at first animated you in the common Cause; and recommend the Province to his Majesty's good Opinion and Favour in all its Concerns

W. SHIRLEY.

Norton, whose Lieutenant (Mr. Stone) lately took the famous black Sloop *Spanish* Privateer, commanded by Don FRANCISCO LORANZO, who in Three Cruises on these Coasts had taken Forty-two Prizes; Capt. A SERMON preached in the Parish Church of St. Philip Charlestown on Sunday the 13th of July 1740, by the Rev. Mr. Commissary Garden. With a Preface, containing some Remarks on Mr. Whitefield's Journals.

N.B. This Sermon Mr. Whitefield heard preached, and is censured (Page 12 of his last Journal) in these Words. In the Morning I went to Church, and heard the Commissary preach. But had some infernal Spirit been sent to draw my Picture, I think it scarce possible he could paint me in more horrid Colours. I think if ever, then was the Time that all manner of Evil was spoke against me falsely for Christ's Sake. The Commissary seem'd to censure Church History for Instances of Enthusiasm and abused Grace; he drew a Parallel between me and all the Oliverians, Ranters, Quakers, French Prophets, till he came down to a Family of the Dutants, who lived (not many Years ago) in South Carolina, and were guilty of the most notorious Incests and Murders.
